

DIKSON®

αβ

An evolution of formulas, concepts and design for **ARGABETA**.
A **NEW MOOD** that is contemporary yet faithful to the line's original philosophy.

The modern approach of the offer is a synthesis of research for new ingredients, substances derived from nature and the development of formulas that combine professional results, high quality and cosmetic effectiveness of hair treatments.

FORMULATION PRINCIPLES and **RIGOUR**, " **FREE FROM...**" **PRODUCTS**, expression of **RESPECT** for the **ENVIRONMENT** and **LOVE** for **NATURE**.

Clean, elegant lines that are representative of Italian style embrace the Urban Lifestyle of contemporary women who care for their well-being and beauty.

ARGABETA, rigorously **MADE IN ITALY**.

Una evolución de fórmulas, concepto y diseño para **ARGABETA**.
Un **NUEVO ESTILO**, coherente con los tiempos, pero fiel a la filosofía original de la línea.
La modernidad de la propuesta es la síntesis de la búsqueda de nuevos ingredientes, sustancias derivadas de la naturaleza y el desarrollo de fórmulas que combinan alta calidad y la eficacia cosmética de los tratamientos para el cabello, para obtener resultados profesionales.
ESENCIALIDAD y **RIGOR** en la formulación, **PRODUCTOS «LIBRES DE...»**, una expresión de **RESPECTO** por el **MEDIO AMBIENTE** y de **AMOR** por la **NATURALEZA**.
Líneas limpias, elegantes, representativas del estilo italiano, abrazan el estilo de vida urbano de las mujeres contemporáneas que están siempre atentas a su bienestar y belleza.

ARGABETA, rigurosamente **MADE IN ITALY**.

Razvoj formulacija, koncepta i dizajna za liniju **ARGABETA**.

NOVI UGOĐAJ, u korak s vremenom, ali privržen izvornoj filozofiji linije.

Suvremenost prijedloga predstavlja spoj istraživanja novih sastojaka, tvari koje potječu iz prirode i razvoja formulacija koje ujedinjuju, s profesionalnim ishodom, visoku kvalitetu i kozmetičku učinkovitost tretmana za kosu.

MINIMALNOST I DISCIPLINA FORMULACIJA, PROIZVODI „FREE FROM...“, izraz su **POŠTOVANJA OKOLIŠA I LJUBAVI PREMA PRIRODI**.

Čiste, elegantne linije koje predstavljaju talijanski stil, obgrljuju Urban Lifestyle suvremenih žena koje se brinu o vlastitom zadovoljstvu i ljepoti.

ARGABETA, isključivo **MADE IN ITALY**.

DIKSON®

PLUS

The distinctive ingredients of the **ARGABETA LINE**

VEGAN COSMETICS: do not contain animal-derived ingredients or those for which the animals have been exploited.

SHAMPOO FREE FROM SLS AND SLES: Sodium Lauryl Sulfate (SLS) and Sodium Laureth Sulfate (SLES) are surfactants, which means substances that are there to ‘dissolve’ the greasy dirt to facilitate elimination through rinsing. One of their attributes is to produce a lot of foam. A strong presence of these substances can affect the hydro-lipid balance of the scalp.

SILICONE FREE PRODUCTS: silicone coats the shaft, completely covers the scales and gives the hair a silky and velvety aspect. The silicones do not dissolve in water: they are therefore not included in the formulas of products with rinsing to prevent them from being released into the groundwater.

PRODUCTS FREE FROM MINERAL OILS: the mineral oils are fluids that are found in nature, they are extracted by man and transformed into different substances. In cosmetic products, they can create a film on the skin and hair in order to prevent the water from evaporating, giving life to apparent hydration.

PRODUCTS WITHOUT ARTIFICIAL COLOURANTS: do not contain artificial colourants, which are there for the sole purpose of enhancing the aspect of the product texture, without any functional value.

WE LOVE PETS: we defend animals by adhering to the legislative Directive, which, since 2009, has imposed the prohibition on testing on animals, as well as the use and importation of cosmetic ingredients tested on animals.

Los elementos distintivos de la **LÍNEA ARGABETA**

COSMÉTICOS VEGANOS: no contienen ingredientes derivados de animales ni ingredientes para cuya obtención se hayan explotado animales.
CHAMPÚ SIN SLS NI SLES: el Lauril Sulfato de Sodio (SLS) y el Lauril Éter Sulfato de Sodio (SLES) son tensioactivos, es decir, sustancias que tienen la función de «disolver» la suciedad grasa para facilitar su eliminación mediante el enjuague. Una de sus características es producir mucha espuma. Una presencia abundante de estas sustancias puede influir en el equilibrio hidrolipídico del cuero cabelludo.

PRODUCTOS SIN SILICONAS: las siliconas revisten el tallo del cabello, cubren completamente las escamas y dan un aspecto sedoso y aterciopelado. Las siliconas no se disuelven en agua, por lo tanto, no se incluyen en las fórmulas de los productos con enjuague para evitar que se liberen en las capas freáticas.

PRODUCTOS SIN ACEITES MINERALES: los aceites minerales son fluidos que se encuentran en la naturaleza, son extraídos por el hombre y transformados en diferentes sustancias. En los productos cosméticos pueden crear películas sobre la piel y el cabello, que impiden que el agua se evapore, lo que crea una hidratación ilusoria.

PRODUCTOS SIN COLORANTES ARTIFICIALES: no contienen colorantes artificiales, ya que la única finalidad de estos colorantes es embellecer el aspecto de la textura de los productos, pero no ofrecen ningún valor funcional.

AMAMOS A LAS MASCOTAS: estamos del lado de los animales y adherimos a la Directiva Legislativa que desde 2009 impone la prohibición de experimentar con animales, así como el uso y la importación de ingredientes cosméticos probados en animales.

αβ

Prepoznatljivi elementi **LINIJE ARGABETA**

VEGANSKA KOZMETIKA: ne sadrži sastojke životinjskog podrijetla ili one za čije se dobivanje iskorištavaju životinje.

ŠAMPON BEZ SLS-A I SLES-A: Natrijev lauril-sulfat (SLS) i Natrijev laureth-sulfat (SLES) su tenzidi, odnosno tvari zadužene za „otapanje“ masne prljavštine radi njezinog lakšeg uklanjanja ispiranjem. Među ostalim, prepoznatljive su po značajnoj proizvodnji pjene. Značajno prisustvo ovih tvari može utjecati na hidrolipidnu ravnotežu tjemena.

PROIZVODI BEZ SILIKONA: silikoni oblažu vlasišće, potpuno prekrivaju ljuske kose i pružaju svilen i baršunasti izgled. Silikoni nisu topivi u vodi: stoga nisu uvršteni u formulacije proizvoda s ispiranjem kako bi se izbjeglo njihovo ispuštanje u podzemne vode.

PROIZVODI BEZ MINERALNIH ULJA: mineralna uljasu tekućine koje se nalaze u prirodi, iskopavaju ih ljudi i prerađuju u različite tvari.

U kozmetičkim se proizvodimamogu stvoriti sloj na koži i kosi koji onemogućuje ishlapljivanje vode, i na taj način nastaje pojava prividne hidratacije.

PROIZVODI BEZ UMJETNIH BOJA: ne sadrže umjetne boje čija je jedina svrha uljepšati izgled teksture proizvoda bez funkcionalne vrijednosti.

WE LOVE PETS: mi smo na strani životinja i podupiremo zakonodavnu Direktivu koja od 2009. godine nalaže zabranu pokusa na životinjama, kao i uporabu i uvoz kozmetičkih sastojaka testiranih na životinjama.

DAILY USE products
ALL HAIR TYPES

ARGAN DAILY USE PRODUCTS are designed for daily care of the hair. Suitable for all hair types, they are the ideal solution for those in need of cleansing and treating them daily. Delicate and efficient formulas enriched with Argan Oil, an extraordinary ally of nature to protect and nourish the hair and defend it against free radicals and greying.

ARGAN OIL: cold extract from the fruits of the Argania Spinosa, Argan Oil is one of the most precious phytochemicals worldwide. It is made up of approximately 99% of essential fatty acids and is rich in antioxidants that perform a synergic action in counteracting the effect of free radicals, thereby slowing down cellular ageing.

ALPHA-LINOLENIC ACID and **LINOLEIC ACID** (precursors of **OMEGA3** and **OMEGA6**), which have a regenerating action on the skin, are among the polyunsaturated fatty acids.

From among **ANTIOXIDANTS**, **ARGAN OIL** is rich in **VITAMINS A** and **E**.

productos DAILY USE
PARA TODO TIPO DE CABELLO

LOS PRODUCTOS ARGAN DAILY USE están formulados para el cuidado cotidiano del cabello. Adecuados para todo tipo de cabello, son la solución ideal para quienes necesitan lavar y tratar el cabello todos los días. Fórmulas delicadas y eficaces enriquecidas con aceite de argán, un extraordinario aliado de la naturaleza, para la protección y la nutrición del cabello y la defensa contra los radicales libres y el encanecimiento. **ACEITE DE ARGÁN:** extraído en frío de los frutos de la planta de Argania Spinosa, el aceite de argán es uno de los fitocompuestos más preciados del mundo. Está constituido por aproximadamente un 99 % de ácidos grasos esenciales y es rico en antioxidantes, los cuales ejercen una acción sinérgica para contrarrestar la acción de los radicales libres y así frenar el envejecimiento celular. Entre los ácidos grasos poliinsaturados se encuentran el **ÁCIDO ALFALINOLÉNICO** y el **ÁCIDO LINOLEICO** (precursores de **OMEGA3** y **OMEGA6**), que ejercen una acción regeneradora a nivel cutáneo. Entre los **ANTIOXIDANTES**, el **ACEITE DE ARGÁN** es rico en **VITAMINAS A** y **E**.

proizvodi DAILY USE
ZA SVE TIPOVE KOSE

PROIZVODI ARGAN DAILY USE se odlikuju formulacijama za svakodnevnu njegu kose. Prikladni su za sve vrste kose, predstavljaju idealno rješenje za sve osobe koje moraju prati ili nanositi tretmane na kosu svaki dan. Nježne i učinkovite formulacije obogaćene arganovim uljem koji je izvanredan saveznik prirode, u zaštiti i ishrani kose te u obrani od slobodnih radikala i nastanka sijedih vlasi.

ARGANOVO ULJE: dobiveno hladnom ekstrakcijom iz plodova biljke Arganisa Spinosa, arganovo ulje je jedan od najcjenjenijih fitoloških spojeva na svijetu. Otprilike 99% posto njegovog sastava predstavljaju esencijalne masne kiseline bogato je antioksidansima koji provode sinergično djelovanje u borbi protiv slobodnih radikala te na taj način usporavaju starenje stanica. Među višestruko nezasićenim masnim kiselinama nalaze se alfa-linolenska kiselina i linolna kiselina (prethodnici **OMEGA3** i **OMEGA6** kiselina) koje imaju regenerativno djelovanje na kožu. Među **ANTIOKSIDANSIMA**, **ARGANOVO** je **ULJE** bogato **VITAMINOM A** i **E**.

SHINE products
COLOURED hair

Shining hair, brightness of highlights, fresh colour.
THE MISSION OF “SHINE” PRODUCTS: enhance coloured hair with formulas rich in precious oils.
Three products, simple treatments with intense effectiveness, fruit of the synergy of **BLACKCURRANT**, **GRAPESEED** and **SWEET ALMOND OILS**, that prolong the colour’s beauty and enhance the shine.
BLACKCURRANT OIL: Ribes Nigrum is a common forest fruit that is widely used in the phyto-therapeutic field as a result of the several active ingredients in the berries. It is ideal to combat fragile hair by promoting hydration to the scalp and in-depth nourishment of the follicle where the hair develops.
GRAPESEED OIL: obtained from grapeseed, it is a rich source of active substances that counteract skin ageing. Extremely rich in polyphenols, which are very precious substances that fight oxidative stress, it is ideal for restoring shine to the hair and preventing the formation of split ends.
SWEET ALMOND OIL: essential ingredient to treat damaged and brittle hair, it is rich in fatty acids and **VITAMINS: A, B1, B2, B6, D and E**.
VITAMIN A keeps hair healthy, **VITAMINS B1, B2 and B6** promote hair growth and **VITAMIN E** is rich in antioxidants: put together, they help the microcirculation of the scalp, thereby improving health to the hair. The fatty acids penetrate deeply into the hair fibres, hydrating and nourishing them.

productos **SHINE**
cabello **TEÑIDO**

«**SHINING HAIR**», reflejos brillantes y colores frescos.
LA MISIÓN DE LOS PRODUCTOS «SHINE»: valorizar los cabellos teñidos gracias a fórmulas ricas en aceites preciados. Tres productos, tratamientos sencillos de gran eficacia, resultado de la sinergia de los **ACEITES** de **GROSELLA NEGRA**, de **GRANUJAS Y DE ALMENDRAS DULCES**, que prolongan la belleza del color y refuerzan su brillo.
ACEITE DE GROSELLA NEGRA: el Ribes Nigrum es un fruto silvestre común muy utilizado en el campo fitoterapéutico gracias a los numerosos principios activos que contienen las bayas. Es ideal para combatir la fragilidad del cabello, ya que favorece la hidratación del cuero cabelludo y nutre a fondo el folículo en el que se desarrolla el cabello.
ACEITE DE GRANUJAS: se obtiene a partir de las granujas, las semillas de la uva, es una verdadera mina de sustancias activas capaces de contrarrestar el envejecimiento de la piel. Muy rico en polifenoles, sustancias preciosas que combaten el estrés oxidativo, es ideal para devolver el brillo al cabello e impedir la formación de puntas abiertas.
ACEITE DE ALMENDRAS DULCES: ingrediente indispensable para tratar el cabello dañado y desfibrado, es rico en ácidos grasos y **VITAMINAS: A, B1, B2, B6, D y E**. La **VITAMINA A** mantiene sano el cabello, las vitaminas **B1, B2 y B6** promueven su crecimiento y la **VITAMINA E** es rica en antioxidantes: en conjunto ayudan a la microcirculación en el cuero cabelludo, lo que favorece la salud del cabello. Los ácidos grasos penetran a fondo en la fibra del cabello, lo hidratan y lo nutren.

proizvodi **SHINE**
OBOJENA KOSA

“**SHINING HAIR**”, sjajni odsjaji, svježina boje.
Upravo to je **MISIJA PROIZVODA „SHINE“:** valorizirati obojenu kosu zahvaljujući formulacijama koje obiluju cijenjenim uljima.
Svi proizvodi, jednostavni i izrazito djelotvorni tretmani, plod sinergije **ULJA OD CRNOG RIBIZA, SJEMENKI GROŽĐA I BADEMA** koja produljuje lijepi izgled boje i jačaju sjaj.
ULJE CRNOG RIBIZA: Ribes Nigrum je uobičajeno šumsko voće koje se često upotrebljava u fitoterapiji zahvaljujući brojnim aktivnim sastojcima koje sadrže njegove bobice. Idealno je kod krhke kose, pospješuje hidrataciju tjemena i dubinski hrani folikulu u kojoj se razvija vlas.
ULJE SJEMENKI GROŽĐA: dobiva se od sjemenki grožđa; sjemenke grožđa su prava riznica aktivnih tvari koje su u stanju neutralizirati starenje kože. Iznimno bogato polifenolima, vrlo dragocjenim tvarima koje su učinkovite protiv oksidativnog stresa, idealno je za vraćanje sjaja kosi i sprečavanje nastanka ispucanih vrhova.
BADEMOVO ULJE: neophodan sastojak za tretmane oštećene i beživotne kose, bogato masnim kiselinama i **VITAMINIMA: A, B1, B2, B6, D i E**. **VITAMIN A** održava kosu zdravom, **VITAMINI B1, B2 i B6** pospješuju rast kose dok je **VITAMIN E** bogat antioksidansima: zajedno pomažu mikrocirkulaciju tjemena i na taj način, pospješuju i zdravlje kose. Masne kiseline duboko prodiru u vlakna kose te ju hidriraju i hrane.

SHINE shampoo

With **BLACKCURRANT, GRAPESEED** and **SWEET ALMOND OILS**

vegKERATIN products DAMAGED AND TREATED hair

Dull hair without tone, weak hair fibre and brittle hair are symptoms of damaged and treated hair. To rebuild the imperfect material of hair subjected to aggressive and repeated treatments, we need exclusive products and new energies.

And it is with this in mind that **REPAIR** products from the **vegKERATIN** line are formulated and enriched with plant Keratin (hydrolysed Rice and Soy proteins) in order to naturally reduce damage to the hair.

PLANT KERATIN (PHYTOKERATIN): plant keratin, or phytokeratin, is composed of low and medium molecular weight hydrolysed proteins derived from **WHEAT, RICE, CORN** and **SOY**.

Since it is easily absorbed, it has a reconstruction action like a **“FILLER”** that recomposes the damaged structure of the hair, faithfully restoring the cell's architecture.

It has a good supporting effect on the hair and compensates for damage caused by perms and fixatives.

productos vegKERATIN cabello DAÑADO Y TRATADO

Cabello opaco y sin tono, fibra capilar débil y desfibrada son síntomas de los cabellos dañados y tratados. Para regenerar la materia imperfecta del cabello sometido a tratamientos agresivos y repetidos, se necesitan productos exclusivos y nuevas energías. Con este objetivo, los productos **REPAIR** del segmento **vegKERATIN** han sido formulados y enriquecidos con queratina vegetal (proteínas hidrolizadas de arroz y soja) para reducir de manera natural los daños que sufre el cabello.

QUERATINA VEGETAL (FITOQUERATINA): la queratina vegetal o fitoqueratina está compuesta por proteínas hidrolizadas de bajo y medio peso molecular derivadas del **TRIGO**, el **ARROZ**, el **MAÍZ** y la **SOJA**. Se absorbe con facilidad, favorece una acción reconstituyente, funciona como un **«FILLER»** que vuelve a compactar la estructura dañada del cabello, reconstituyendo fielmente su arquitectura celular. Posee un buen efecto sustantivo en el cabello y compensa el daño causado por permanentes y fijadores.

proizvodi vegKERATIN OŠTEĆENA I KEMIJSKI TRETIRANA kosa

Kosa bez sjaja i bez tonusa, oslabljena i iscrpljena kapilarna vlakna su simptomi oštećene i kemijski tretirane kose. Za rekonstrukciju nesavršene materije kose koja je podvrgnuta učestalim agresivnim kemijskim tretmanima, potrebni su ekskluzivni proizvodi i nova energija. Upravo se imajući na umu ovaj cilj, formuliraju proizvodi **REPAIR** iz segmenta **vegKERATIN** koji su obogaćeni biljnim keratinom (hidroliziranim proteinima riže i soje) radi smanjenja oštećenja kose na prirodan način.

BILJNI KERATIN (FITO KERATIN): biljni keratin ili fito keratin se sastoji od hidroliziranih proteina niske i srednje molekularne težine, dobivenih iz **PŠENICE, RIŽE, KUKURUZA I SOJE**. Lako se apsorbira, pospješuje rekonstrukciju, služi kao **„FILER“** koji obnavlja oštećenu strukturu kose i vraća u prvobitno stanje arhitekturu stanica. Kosu čini potpunom i nadoknađuje oštećenja nanijeta tretmanima trajne ondulacije i učvršćivanja.

vegCARBON (CHARCOAL) products
hair STRESSED BY ENVIRONMENTAL FACTORS

Hair is subjected to environmental stress on a daily basis caused by external agents and polluting substances that compromise their health. Technical services such as colouring and lightening may also be less performing and the colours duller and less bright. The detox action of **DETOX** products with charcoal functions efficiently by giving the hair natural purity and vitality.

CHARCOAL: charcoal is a very porous powder with absorbing, detoxing and purifying properties.

Detergent and antismog, it is an ideal ingredient in cosmetics to eliminate residues of polluting substances and toxins. The type derived from the carbonisation of bamboo is more porous and has greater absorption properties.

The charcoal used in Argabeta Detox products is certified as not deriving from deforestation of rainforests.

LAVENDER OIL: known for its soothing properties, it is efficacious on an irritated scalp, has a sebum-regulating action and tones the hair.

YLANGYLANG OIL: YlangYlang in Filipino means “flower of flowers”. The oil obtained from the superb flowers of this exotic tropical Asian tree has a toning and astringent effect on the hair.

productos vegCARBON (CHARCOAL)
cabello DAÑADO POR FACTORES AMBIENTALES

Todos los días el cabello es sometido al estrés del ambiente debido a la acción de agentes externos y sustancias contaminantes que afectan la salud del cabello. Incluso los tratamientos técnicos, como la coloración y la decoloración, pueden resultar menos eficaces y los colores más opacos y menos luminosos. La acción desintoxicante de los productos **DETOX** con carbón vegetal actúa de manera eficaz devolviendo al cabello su pureza y vitalidad natural.

CARBÓN VEGETAL: el carbón vegetal es un polvo muy poroso con propiedades absorbentes, desintoxicantes y purificantes. Detergente y antiesmog, es un ingrediente ideal en los cosméticos para eliminar los residuos de sustancias contaminantes y las toxinas. El que deriva de la carbonización del bambú es más poroso y tiene una mayor capacidad de absorción.

El carbón vegetal utilizado en los productos de Argabeta Detox cuenta con certificación que garantiza que no proviene de la deforestación de selvas tropicales.

ACEITE DE LAVANDA: conocido por sus propiedades lenitivas, actúa sobre el cuero cabelludo irritado, tiene una acción seborreguladora y tonifica el cabello.

ACEITE DE YLANG YLANG: Ylang Ylang significa «flor de flores» en filipino. El aceite que se obtiene de las magníficas flores de este árbol exótico de Asia tropical ejerce una acción tonificante y astringente sobre el cabello.

proizvodi VEGCARBON (CHARCOAL)
kosa IZLOŽENA STRESU KOJI JE PROUZROČEN OKOLIŠNIM ČIMBENICIMA

Svakim danom kosa je izložena stresu iz okoliša koji je prouzročen djelovanjem vanjskih agensa i zagađujućih tvari koje ugrožavaju zdravlje. Također, tehničke usluge poput bojenja i izbjeljivanja, mogu se pokazati kao manje učinkovite i boje mogu biti ugašene i bez sjaja. Proizvodi **DETOX** s biljnim ugljenom koji se odlikuju detoksikacijskim djelovanjem, vraćaju kosi prirodnu čistoću i vitalnost.

BILJNI UGLJEN: biljni ugljen je izrazito porozni prah upijajućih svojstava, za detoksikaciju i čišćenje. Sredstvo koje pere i čuva od smoga, predstavlja idealni sastojak u kozmetici i služi uklanjanju ostataka zagađujućih tvari i toksina. Ugljen dobiven karbonizacijom bambusa je porozniji i odlikuje se većom sposobnošću upijanja Biljni ugljen koji se upotrebljava u proizvodima Argabeta Detox se odlikuje certifikatima koji potvrđuju da se ne dobiva deforestizacijom kišnih šuma.

LAVANDINO ULJE: poznato po svojim umirujućim svojstvima, djeluje na nadraženo tjeme; odlikuje se svojim djelovanjem na regulaciju sebuma i vraća kosi vlastiti tonus.

ULJE YLANGYLANG: YlangYlang na filipinskom jeziku znači „cvijet nad cvijetovima“. Ulje koje se dobiva iz nevjerojatnih cvjetova ovog egzotičnog stabla koje potječe iz tropskih dijelova Azije, osvježava i steže kosu.

DIKSON®

DETOX shampoo

With **CHARCOAL** and **LAVENDER** and **YLANGYLANG OILS**
