DIKSON®

OFFERS

DIKSO
LISSAGE.
LISSACTIVE.

the **NEW STRAIGHTENING TREATMENT**
based on a **RENEWED TECHNOLOGY**,
developed with a special focus on HAIR WELL-BEING.

DIKSO **LISSAGE.** LISSACTIVE
is **SAFE** and can be used on **ANY TYPE OF HAIR**,
both natural and treated, thanks to an **EFFECTIVE**,
NON-AGGRESSIVE FORMULA.

STRAIGHTENING ANTI-FRIZZ EFFECT
and **HAIR REGENERATION** guaranteed in a **SINGLE TREATMENT.**

Incredibly **STRAIGHT, HYDRATED** and **REGENERATED**
hair with DIKSO **LISSAGE.** LISSACTIVE

A black and white artistic photograph of water splashing, creating dynamic, flowing shapes against a light background. The water appears to be falling from the top left and right, creating a sense of movement and freshness.

DIKSON

DIKSO **LISSAGE**. LISSACTIVE
combines in a SINGLE TREATMENT:

- EFFECTIVENESS of innovative hair straightening technology
- EASE of use
- long-lasting RESULT

DIKSO **LISSAGE**. LISSACTIVE
includes THREE PRODUCTS presented in a practical
MINI-KIT

n° **1** SLS Free Straightening pre-treatment
SHAMPOO
100ml

n° **2** Anti-frizz straightening
CREAM-TREATMENT
250ml

n° **3** Post-straightening treatment
REGENERATING MASK
100ml

THE TREATMENT.

DIKSO
LISSAGE.
LISSACTIVE.

n°1

STRAIGHTENING
PRE-TREATMENT
SHAMPOO
100ml

It gently cleanses and prepares hair for the next steps of the DIKSO LISSAGE.LISSACTIVE. anti-frizz straightening treatment. **Sulphate Free**

Use in combination with the straightening cream-treatment only or as a post-treatment maintenance shampoo.

n°2

ANTI-FRIZZ STRAIGHTENING
CREAM-TREATMENT
250ml

The heart of the DIKSO LISSAGE.LISSACTIVE. treatment, it straightens hair and **regenerates** it at the same time.

THE PRODUCTS.

DIKSO
LISSAGE.

LISSACTIVE.

n°3

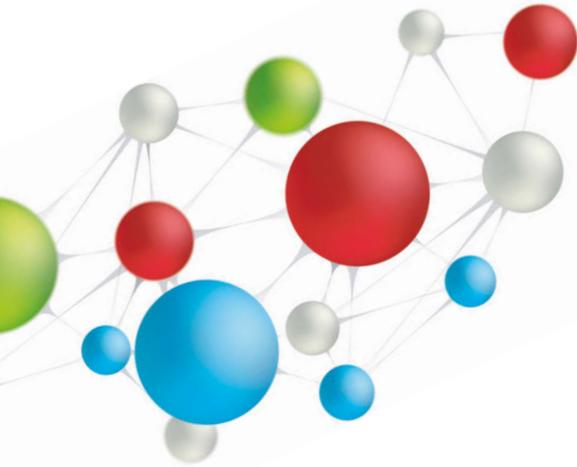

POST-STRAIGHTENING TREATMENT
REGENERATING MASK

100ml

The last step of the
DIKSO LISSAGE. LISSACTIVE
treatment, it **completes** the **regenerating effect**
on the hair and **leaves it silky to the touch,**
shiny and **visibly healthy.**

It can also be used as
a post-treatment maintenance
mask in combination with
DIKSO LISSAGE. LISSACTIVE
n°1 Shampoo.

1. KERATIN

Penetrates into the cuticles and attaches to the hair shaft for effective hair regeneration, nourishing the hair fibre after applying the Straightening Cream-Treatment.

2. HYALURONIC ACID

Has the ability to absorb a high amount of water molecules and prevent the damage to tissue cells caused by physical stress, restoring the right amount of water to natural hair.

3. PRODEW 500

Is a complex of restructuring amino acids that work together, providing even the most unstructured hair fibre with a boost of energy and vitality and restoring the ideal hydration, strength and texture.

4. PYRUVIC ACID

Naturally present in honey, vinegar, fermented fruits and apples, it has a strong keratolytic action. Pyruvic Acid is exclusively contained in the formula of DIKSO **LISSAGE**. LISSACTIVE n°2 STRAIGHTENING CREAM-TREATMENT to aid in the straightening process.

DIRECTIONS FOR USE.

DIKSO
LISSAGE.
LISSACTIVE.

PHASE 1

- > Apply DIKSO LISSAGE. LISSACTIVE n°1 STRAIGHTENING PRE-TREATMENT SHAMPOO in the necessary amount depending on hair length.
- > Massage gently.
- > Rinse.
- > Remove excess water from the hair with a towel.
- > Blow dry the hair to 80-90%.

PHASE 2

- > Create locks about 2 cm thick and apply from 40 to 120ml of DIKSO LISSAGE. LISSACTIVE n°2 CREAM-TREATMENT with a brush, depending on the length and porosity of the hair.
- > Blow dry the hair.
- > Divide your hair into 4 sections; taking 1 cm locks, pass the straightening plate over each lock 10 times, starting from the back of the neck.
- > Straighten lock by lock.
For non-blonde hair, the temperature of the straightening plate must be 220 °C.
On blonde hair, pass the straightening plate 8 times at a maximum temperature of 180-200 °C.
- > Let the hair cool and rinse generously.
- > Blot any excess water.

PHASE 3

- > Apply DIKSO LISSAGE. LISSACTIVE n°3 POST-STRAIGHTENING TREATMENT REGENERATING MASK.
- > Leave on for 5 minutes.
- > Rinse.
- > Blow dry the hair and define the style as needed, also using a straightening plate.

IS DIKSO LISSAGE. LISSACTIVE A CHEMICAL STRAIGHTENING TREATMENT?

No, DIKSO LISSAGE. LISSACTIVE is not a chemical straightening treatment, but an anti-frizz/straightening treatment.

ON WHICH HAIR TYPES CAN I APPLY DIKSO LISSAGE. LISSACTIVE?

The DIKSO LISSAGE. LISSACTIVE straightening treatment can be applied to all hair types, even on coloured and bleached hair.

IS IT MORE ADVISABLE TO APPLY DIKSO LISSAGE. LISSACTIVE ON THE HAIR BEFORE OR AFTER THE COLOURING TREATMENT?

For perfectly straight hair, and to get an even and shiny hair colour result, it is advisable to apply the DIKSO LISSAGE. LISSACTIVE treatment before colouring.

If DIKSO LISSAGE. LISSACTIVE is applied after colouring the hair black or bright red, the hair colour may fade slightly.

IS IT NECESSARY TO MIX DIKSO LISSAGE. LISSACTIVE WITH DIKSOPLEX™ DEFENSIVE TO PROTECT THE HAIR DURING THE STRAIGHTENING TREATMENT?

No, it is not necessary. The formula of DIKSO LISSAGE. LISSACTIVE is not harsh on the hair and contains a complex of restructuring amino acids that leave the hair soft, silky and regenerated after the treatment.

WHY SHOULD I DRY MY HAIR TO 80-90% AFTER THE DIKSO LISSAGE. LISSACTIVE PRE-TREATMENT SHAMPOO AND BEFORE APPLYING THE DIKSO LISSAGE. LISSACTIVE CREAM?

Partially drying the hair allows the DIKSO LISSAGE. LISSACTIVE Cream to better adhere to the hair, ensuring a longer-lasting and more even result.

AFTER APPLYING THE DIKSO LISSAGE. LISSACTIVE CREAM, SHOULD THE HAIR BE LEFT TO REST STRAIGHT?

No, DIKSO LISSAGE. LISSACTIVE is not a chemical straightening treatment so there is no need to leave it to rest straight.

CAN ONLY THE DIKSO LISSAGE. LISSACTIVE CREAM BE APPLIED FOR STRAIGHTENING?

No. For straightening, it is essential to apply all three products that are part of the treatment.

The DIKSO LISSAGE. LISSACTIVE Shampoo prepares the hair so that the straightening DIKSO LISSAGE. LISSACTIVE Cream can fully perform its function, while the DIKSO LISSAGE. LISSACTIVE Mask completes the treatment, leaving the hair silky and soft.

CAN DIKSO LISSAGE. LISSACTIVE SHAMPOO BE USED AS A REGULAR SHAMPOO?

DIKSO LISSAGE. LISSACTIVE Shampoo is specifically formulated to be used as a DIKSO LISSAGE. LISSACTIVE pre-straightening treatment or as a post-treatment maintenance shampoo. Therefore, it should not be used as a regular shampoo.

WHEN THE TREATMENT IS COMPLETED AND THE HAIR IS DRY, CAN I AVOID USING THE STRAIGHTENING PLATE?

Using a straightening plate is essential to straighten the hair. In fact, it is the heat of the plate that straightens the hair after applying the Cream-Treatment n°2.

HOW THICK SHOULD A LOCK OF HAIR BE WHEN STRAIGHTENED WITH THE PLATE?

A 1 cm thickness is recommended to obtain the desired result.

HOW LONG DOES THE STRAIGHTENING EFFECT LAST AFTER THE TREATMENT?

If applied according to the instructions for use, the DIKSO LISSAGE. LISSACTIVE treatment lasts up to three months.

The anti-frizz effect is guaranteed for up to 4 months.

CAN THE TREATMENT BE REPEATED AFTER 3 MONTHS?

Of course, the treatment can be repeated when necessary.

IS IT NECESSARY TO FOLLOW A MAINTENANCE PROGRAMME TO MAINTAIN THE STRAIGHTENING EFFECT AFTER THE TREATMENT?

We recommend using DIKSO LISSAGE. LISSACTIVE Shampoo n°1 and Regenerating Mask n°3.

DOES THE ANTI-FRIZZ AND STRAIGHTENING EFFECT CHANGE DEPENDING ON THE TYPE OF HAIR?

Yes, the results may vary slightly depending on the type and porosity of the hair.

HOW MANY TREATMENTS CAN BE DONE WITH A 250ml BOTTLE OF DIKSO LISSAGE. LISSACTIVE CREAM?

Normally, 3 applications on medium-length hair.
